

## BISHOP A BOLD MAN

He Tries to Protect the Treasury of the State.

### BUT IS QUICKLY VOTED DOWN

He Moves That No Money of the State Be Used to Pay for the Trip to Chicago—Voted Down.

STATE HOUSE, LANSING, Mich., April 11.—Fifty-nine members of the house answered roll call tonight and passed the normal school appropriation bill at the original amount, \$101,220.

Mr. Bishop took advantage of the small number present to introduce a resolution providing that in accepting the invitation to attend the world's fair opening of the Michigan building, no money be drawn from the state treasury. This threw the house into a wild commotion and on a call of yeas and nays on the resolution not a quorum voted. A call of the house was demanded and voted down, and then a motion to adjourn carried amidst wild excitement.

Mr. Bishop's action is roundly denounced by those who had been friendly to his way of thinking and there is no longer any hope for the state treasury. It will be called upon to defray expenses of the Chicago trip.

A peculiar condition of affairs developed today when it was learned that an invitation to visit the opening of the Michigan building had not been extended to the senate. Some of the members of that body took upon it as a slight because the senate refused to pass the increased world's fair appropriation bill, while others take a more charitable view and call it an oversight. From present indications the senate would refuse to accept an invitation if it was extended, and there is talk of a Sunday excursion of the senators, each defraying his own expenses. Certain it is that the Michigan world's fair board need look for no more assistance from the legislature.

### HOUSE PROCEEDINGS—

#### A Committee Appointed to Arrange For the World's Fair Junkies.

LANSING, Mich., April 11.—There was a large attendance of the members of the house today and advantage was taken of this fact to give immediate effect to several bills recently passed, including the Grand Rapids board of public works bill, the conditional sale or lease of railways, rolling stock, etc., bill, and Mr. Moody's oil bill, which was given effect July 1, 1903.

The bill authorizing St. Joseph to bond itself for \$21,000 for waterworks improvement was favorably reported by the committee and under a suspension of the rules was passed and given immediate effect.

Considerable debate was indulged in over the bill widening the scope of the state warren and after the defeat of a motion to strike out the enacting clause, the bill was referred back to the committee. The principal objection to the bill was a clause giving the game warden authority to break into any house where he had reason to believe game, illegally killed, was secreted.

The ways and means committee submitted a majority and minority report on the Kalamazoo insane asylum appropriation bill. The minority report did not approve of an appropriation of \$18,000 for a water tower and \$18,000 for an electric light plant, although the signers expressed themselves willing to allow one of the other of the appropriations. Mr. Sumner stated that the appropriations meant a great saving to the house and the majority report was accepted. The bill was made a special order for 2:30 p. m. tomorrow, as was the bill providing for an insane asylum in the upper peninsula.

Mr. Smith's fish shute bill, the hugaboo of the house, was brought up again this afternoon and after the usual debate was, in sheer desperation, passed. The bill has certainly shown more vitality than any bill ever brought up in the house, having been ridiculed, amended, out and mutilated at various times, and Mr. Smith is a happy man tonight, although there is but little danger that the bill will ever become a law.

Mr. White brought up the senate bill prohibiting the execution of prisoners convicted in United States courts and, to the surprise of many, it was passed and given immediate effect, there being but one vote in opposition to it.

On motion of Mr. Baum the house went into committee of the whole to consider Mr. Sumner's resolution providing for a joint committee of five to visit Chicago and make arrangements for the attendance of the legislature at the opening exercises of the world's fair.

Mr. Baum stated that a committee of which he was a member, had secured five Pullman coaches, and that the expense to each single member would be \$1 for the three days and \$12 for a member and his wife. Messrs. Bishop and Hammond again opposed the idea of the legislature attending the fair and compelling the state to pay the expenses of the trip. However, Messrs. Kline, Watson, Green, Strong, McKinnley, Chamberlain and others took the opposite side, contending that other states had voted to pay the expenses of their legislatures on similar missions, that it was an honor to the state to pay the expenses, and that if members paid their own expenses it would be impossible to keep the legislature in a body in Chicago. In committee of the whole it was finally decided that the legislature visit the opening exercises in a body, at the expense of the state, and that a committee of two be appointed to visit Chicago and make arrangements for the reception of those who attend.

### SENATE PROCEEDINGS.

Feenmist Burt in a Passion Over the Expense Account.

LANSING, Mich., April 11.—In the Legislative Journal this morning there appeared a tabulated statement of the legislative expenses of 1903, with comparison of all in Leavening Power.—Latest U. S. Gov't Report.

sons. In the senate this afternoon Mr. Burt denounced the statement as inaccurate and asked that a committee be appointed to investigate the matter. The motion was defeated, but not until after a heated debate.

The session was resumed with prayer by the Rev. W. W. Brown (colored) of Richmond, Virginia.

Mr. Barnard's bill providing for the appointment of a state board of examiners for would be attorneys, solicitors and counselors, was reported adversely by the committee on judiciary.

Bussell's minor bill, amended so as to exempt St. Clair river and Lake St. Clair, was passed, as was the bill authorizing railroad companies whose roads are situated in the upper peninsula to lease, sell or convey their property and franchises to any other company, also the bill providing for a board of trustees for the management and control of the industrial school for boys.

In committee of the whole there was considerable discussion over Mr. Earle's bill providing that life convicts should be kept in the "solitary" for six months, instead of in the discretion of the board, as at present. It was finally decided that convicts should stay in the "solitary" as long as the board and governor decided that the correspondence of life convicts should be restricted to relatives.

Senator Fox started a "circuit" when he moved to take from the table the house substitute for the senate concurrent resolution providing for a committee of investigation of the state prison at Jackson, and moved to refer the same to the committee on state prison.

Mr. Turnbull moved to amend, by providing for an additional member for each of the two standing committees. He thought such a course would be fair to all. His amendment was declared out of order.

Mr. Clark said that it was the plan of management that was to be investigated and not whether there was more mismanagement under Warden Davis than under Warden Hatch. He enumerated at length the methods of relaxation and amusement for convicts in the prison and asked whether they were justified. These were the things which needed investigation. He thought politics should not enter into the matter at all. He compared the two administrations under which Lansing has served, and he could not see that one excelled the other. An able and fair committee should decide whether prison reform is a success or failure.

The house substitute was then referred to the committee on state prison. Adjourned.

Supreme Court. Business of very great importance transacted in the supreme court today. Tomorrow's call is as follows: Nos. 22, 23, 24, 25, 27, 28, 29, 30, 31 and 32.

ARBOR DAY PROCLAMATION.

In compliance with an honored custom and with public sentiment, I hereby designate Friday, April 23, 1903, to be observed as Arbor day.

The general observance of this day by the planting of trees, shrubs and flowers is most earnestly recommended. In this way our homes, highways and public places may be improved and adorned, and future generations benefited.

It is further recommended that the beneficial object of the day be impressed upon the minds of our youth by appropriate exercises in our public schools.

Given under my hand and the great seal of the state, at the capitol in Lansing, this 10th day of April, in the year of our Lord one thousand eight hundred and ninety three, and of the independence of the United States, the one hundred and seventeenth.

JOHN T. RICH, Governor.  
JOHN W. JOCHIM, Secretary of State.

State News in Brief.

Mr. Cordelia B. Babcock failed to get a divorce from her husband, the Rev. T. F. Babcock, because a Lansing judge held that she killed him too often and that being the case her life could not be miserable.

George Jagger, the Big Rapids idiot who shot Anna Merv while driving to Morley, was examined yesterday and was held to await the result of his victim's injuries.

Verla Vanderwood of Traverse City attempted to climb on a moving wagon. The child's screams saved her from being torn in two, as she was caught in the wheel.

Jackson is again agitating the question of a pure water supply. If that city would study Grand Rapids a minute it would find out what not to do.

Ypeltanti capitalists are talking of building a bathhouse to utilize the water from a new mineral spring. The project may grow into a sanitarium.

Jackson's council has appropriated \$750 to clean her streets and highways. Does the town intend to employ convict labor or make an old-time bluff?

Lansing's Y. M. C. A. held its seventh anniversary Monday night. The receipts for the year were \$2,307.75; expenses, \$300 above this figure.

Dick Sly says that Brown did not shoot in self defense in the Jackson tragedy, but fired twice without a bit of warning.

Damage suits are being filed at Bay City against the electric railway and Grand Trunk by persons injured in the recent collision.

Big Rapids believes that she is going to have a building boom this spring. Expectations and realization are different things.

Boats have begun the season from Benton Harbor to Chicago. The Mary Bradshaw made the first trip Monday.

Charles Mann, a Detroit brewer, has become crazed by Christian science. Why not try absent treatment?

Navigation was opened at East Tawas yesterday by the arrival of the steamer Pilgrim from Detroit.

A. F. Bruke, president of the Alma college, has raised \$95 in Iowa for that institution.

William Lichke, a Watertown farmer, was kicked to death by a horse Sunday.

Unjust Taxation.

It is unjust to tax the stomach with burthen that it cannot bear. Many silly people thus tyrannize that faithful servant until it rebels and punishes them as they deserve. Dyspepsia is usually the child of gastronomic folly, but whether this or the natural associate of the inherent feebleness from childhood, it is surely and pleasantly remediable with Hostetter's Stomach Bitters. The finest and most highly sanctioned gastric tonic in existence. As a result of the tone imparted to the stomach, and the increased activity of its digestive and assimilative action, insured by the persistent use of this benign invigorant, general stamina is augmented, the nerves strengthened and tranquilized, and a tendency to insomnia and hypochondriacal depression, biliousness, chills and fever, rheumatism and kidney troubles are conquered by this admirable medicine.
